(a) A length minimum drops positives faster
ours: k = 1
k = 3 removes 8.7% of positives, 3.4% of negatives
positive reviews
negative reviews
all tokens
Removed by the rule (%)
Rule: keep reviews with at least k words
(b) No near-identical pairs from 14 to 26 words
ours: from 14 words, exact copies by others are removed
Pairs by different people
Words in the longer review of the pair
(c) Ratings correlate (ρ = 0.17), so value levels off
limit 1/ρ = 5.73
ours: cap 90 reaches 95% of the limit (87–93 on 50 random halves of the products)
Worth in independent reviews
Reviews kept for one product, m
(d) Rare words add size, not coverage
5+ (ours): |V| = 17,068, 0.62%
<unk> on unseen products (%)
Vocabulary size |V| (label: minimum count)
